Education

Rutgers University
BS IN COMPUTER SCIENCE

New Brunswick
September 2016 – May 2020

Professional Experience

MJJT Consultants

WEB DEVELOPMENT INTERN

Empire State Building, NYC
June 2017 – August 2017

- Worked in a team to design custom web pages for clients primarily using HTML, CSS, and JavaScript
- Assisted and learned from senior designers in basic coding and debugging a private application for Blue Generation using HTML, CSS, JavaScript, Node.js, and React
- Utilized Joomla to efficiently manage many of simpler client websites
- Worked closely with team and management to be mentored and to ensure satisfaction with job performance and final products

Morris Tap & Grill

SERVER

Randolph, NJ
June 2018 – August 2018

- Greeted, served, and interacted with customers to provide a comfortable and fun experience. Served food and beverage.
- Worked with managers and other servers as a team to ensure the best possible service. This included covering tables when others were overwhelmed and assisting with bussing when necessary
- Used Toast (restaurant software) to efficiently communicate orders to the bar and kitchen
